		Summary: political prisoners who are being held on false charges because of the AGs office and judge Jeff Weill fighting the hinds DA. It's very serious because their constitutional and civil rights are being violated. Dennis sweet represents another defendant and he is furious about it. I'm filing something today with Supreme Court on Christopher butler. Thanks. I know you're busy. Source Extraction: Logical

		If you want an African American perspective of the "machine" then you can read some old articles from Jackson advocate. He talks about downtown partners, Ben Allen, etc. monopolizing and strong arming politics, therefore leaving the citizens in dire straits. Source Extraction: Logical
